

Direct Observation of Procedural Skills: New Patient Exam

This assessment should observe the VED during a new patient examination. The assessment is used to record judgements on the performance of the VED following an evaluator's observation of a specific patient encounter or case. The Assessor should give feedback as soon as possible after the event, whereby the VED's insight into their own performance will also be evaluated. Serious concerns should be notified to the Postgraduate Dental Dean or his/her representative as soon as possible
