Training Details

Clinical training will be carried out in the Orthodontic Department at Dorset County Hospital, Dorchester. The trainee will have six clinical sessions per week. The trainee will travel to Bristol Dental School for teaching. The trainee will also have time allocated for administrative tasks and research. The Orthodontic Department at Dorset County Hospital is a modern purpose-built department with five individual surgeries all equipped with high quality Adec equipment. All surgeries have computer access to the Hospital Intranet and departmental databases as well as Dolphin orthodontic planning software, including Aquarium. The COG orthognathic planning software OPAL is also available. Additional facilities include a study model box store and orthodontic records storeroom, offices and waiting room; these are all the highest standard.

Dental radiographic facilities are provided by a satellite unit of our Main X-Ray Department. This is adjacent to the Orthodontic Department and has had a Sirona digital OPT /CEPH machine. PACS is available throughout the Hospital.

Photography is provided by four in house digital cameras.

There is an on-site laboratory currently staffed by a Laboratory Manager and three Specialist Orthodontic Technicians.

A regular monthly joint Orthodontic / Maxillofacial clinic is held with Professor Ilankovan or Miss Lwin, Consultant Oral and Maxillofacial Surgeons. The trainee will attend this clinic during Years 2 and 3 of training.

Duties and Responsibilities of postholder**a) Clinical**

The Specialty Trainee will have a personal caseload of IOTN 4 and 5 malocclusions. They will have the opportunity to correct malocclusions using a range of fixed and functional appliances including headgear, RME, self-ligating brackets and Temporary Anchorage Devices (TADs). In addition, they will attend new patient clinics and will be exposed to the management of more complex orthodontic cases.

b) Teaching

There is an expectation that the trainee will enroll on the DDS Orthodontic programme at the University of Bristol.

c) Study/Research

Study and examination leave allowance are as stated in the Terms and Conditions of Service.

Facilities for research are available for approved projects and research is actively supported.

d) Administrative

The routine administrative content of this post is allowed for in the timetable.

e) Audit

The trainee will be expected to actively participate in local audit within the Trust. The trainee will participate in relevant national clinical audits

Description of main training site

Dorset County NHS Foundation Trust (DCHFT)

The trust is located close to the centre of the county town of Dorchester and is a modern, 400-bed hospital. It provides the full range of general, acute hospital services, including an emergency department.

The hospital serves a population of approximately 215,000 people who reside within the west of the county of Dorset (Blandford, Shaftsbury, Sherborne, Lyme Regis, Weymouth and Dorchester boundaries).

The orthodontic team consists of four consultants; Mrs Pamela Ellis, Mr Hugh Bellis, Mrs Claire Furness and Mrs Rebecca Bradley. In addition, we have one Hospital addition, oner and one Orthodontic Therapist. The team are supported by a Hygienist, an Oral Health Educator, orthodontic nurses, administrative staff and the lab team.

The Trust can arrange accommodation for the trainee.

Description of second training site

University of Bristol Dental Hospital, University Bristol Hospitals NHS Foundation Trust (BDH)

The University of Bristol Dental Hospital (BDH) and the Bristol Royal Infirmary are the major centres for specialty training in the South Western Deanery, providing a specialist and emergency service.

BDH has approximately 95,000 patient attendances per annum and has an excellent national and international reputation for patient care, scholarship and research. Academics work in close association with NHS colleagues and share joint management procedures.

BDH is adjacent to the Bristol Royal Infirmary (BRI), a major tertiary referral centre, where all investigative, medical and surgical facilities are present within the complex. There is a designated Children's Hospital within the Bristol Royal Infirmary complex. 2013 saw the centralisation of the Head and Neck services to UH Bristol.

Within BDH, this included oral and maxillofacial surgery and orthodontics. The South West cleft services transferred to the dental hospital in the summer 2014. Research in basic sciences and clinical research are now well established as part of the Research base in Bristol Dental School. At the last Research Assessment Exercise, the School was rated 5* a score which was achieved by only one other Dental School in the UK.

There is a well-equipped StR teaching and office space within the department.
