**Training Details**

The Orthodontic Department is based at the Royal Devon and Exeter Hospital – Heavitree site (RD&E). Heavitree is increasingly used as a base for elective outpatient care such as dermatology, ophthalmology and fertility services and as such presents an ideal, calm welcoming base for orthodontics. Orthodontics forms part of the Combined Maxillofacial Unit and shares close working relationships. The majority of the Senior Specialty Training will be carried out in Exeter whilst some aspects will be provided by University of Bristol Dental Hospital. Bristol can be accessed by rail or train and is approximately 80 miles from Exeter.

The Orthodontic Department comprises seven fully equipped A-Dec chairs in an open plan, bright and air-conditioned clinic which is devoted to orthodontics. This is a new and modern set-up and we are delighted to work in such a fabulous environment. There are computers chair side with model storage within the unit. Nursing and secretarial support staff is formally assigned to one or other of the specialities but are flexible in meeting the needs of both specialities as the needs of the service require.

Radiographic facilities are provided by a departmental x-ray machine. Digital radiographs are stored and accessed through Trust computers with additional ability to analyse lateral cephalograms (OPAL system). In Exeter the department is equipped for digital photography with two complete Nikon D50 cameras. Image archiving is completed through the department and stored on the Trust server.

There is a modern and well-equipped Maxillofacial and Orthodontic Laboratory with two orthodontic technicians providing the full range of fixed, functional and removable appliances.

There is a well-equipped office space within the department on both sites with desk and storage space. Office space is shared with other clinicians within the Combined Unit.

Staff within the unit play an active role in training and teaching locally, regionally and nationally. In addition to other StRs and SHOs we have an orthodontic therapist and within the Combined Unit undergraduate students also attend the unit regularly.

A regular weekly joint Orthognathic clinic is held with Mr M Esson (Maxillofacial Consultant).

Cleft Lip and Palate Services are provided by the Bristol and Wales Cleft Team (Clinical Director: Mr Scott Deacon Consultant Orthodontist). The RD&E is one of the spoke units where patients will have Orthodontic, ENT and Speech Therapy services provided locally where appropriate.

There is no consultant service for Restorative Dentistry in Exeter. All cases requiring restorative advice and support are referred out of the district to consultants at Musgrove Park Hospital, Taunton.

Training is geared towards successful performance in the Post CCST Orthodontics exam and award of MOrth from the Royal College.

### **Duties and Responsibilities of postholder**

**a) Clinical**

The Specialty Trainee will have a personal caseload of IOTN 3, 4 and 5 malocclusions. They will have the opportunity to correct malocclusions using fixed and functional appliances. In addition they will have exposure to new patient clinics and will be exposed to the management of more complex orthodontic cases.

**b) Teaching**

There is an expectation that the trainee will enrol on the DDS Orthodontic programme at the University of Bristol

**c) Study/Research**

Study and examination leave allowance are as stated in the Terms and Conditions of Service.

Facilities for research are available for approved projects and research is actively supported.

**d) Administrative**

The routine administrative content of this post is allowed for in the timetable.

**e) Audit**

The trainee will be expected to actively participate in local audit within the Trust. The trainee will participate in relevant national clinical audits

### **Description of main training site**

#### **Royal Devon and Exeter Hospital NHS Foundation Trust**

The Royal Devon & Exeter NHS Foundation Trust (RD&E) serves the mixed urban and rural population of Exeter, East and mid Devon. In addition patients access specialist services from a wider region including the rest of Devon, Somerset and Cornwall. This trusts' reputation as an innovative leading acute hospital has developed over 250 years.

The RD&E was one of the first Foundation Trusts to be created in the country and supplies services to about 400,000 residents and visitors primarily in Exeter and East and Mid Devon.

The Trust is governed by a unitary board comprising a Chairman, Chief Executive and both Executive and Non-Executive Directors. The Executive Directors manage the day to day operational and financial performance of the Trust. These consist of the Chief Executive Officer, a Director of Transformation and Organisational Development, a Medical Director, a Director of Finance and Business Development and a Chief Nurse /Executive Director of Delivery.

The Non-Executive directors do not have responsibility for the day to day management of the Trust but share the Board's corporate responsibility for ensuring that the Trust is run efficiently, economically and effectively.

Clinical services are managed in three divisions led by a Divisional Director, Associate Medical Director and an Assistant Director of Nursing/Associate Director of Midwifery and Patient Care.

For a full description of the main hospitals and services of the Trust see the Trust website <http://www.rdehospital.nhs.uk/>

### **Description of second training site**

#### **University Hospitals Bristol NHS Foundation Trust (UH Bristol)**

Situated in the heart of Bristol, UH Bristol is a large city centre Teaching Trust employing over 7000 staff, with annual revenue of nearly £400 million and with a total of 1156 beds throughout the Trust. We are one of the largest employers in Bristol and provide a wide range of in-patient, outpatient and day-care services to the local population within Bristol, as well as being the biggest specialist referral centre for the South West England.

#### **University of Bristol Dental Hospital**

Bristol Dental Hospital and School is a major specialist centre in the South West Region. The Dental Hospital has approximately 70,000 patient attendances per annum and has an excellent national and international reputation for patient care, scholarship and research. Academics work in close association with NHS colleagues and share joint management procedures. The Dental Hospital site is adjacent to the Bristol Royal Infirmary (BRI), a major tertiary referral centre, where all investigative, medical and surgical facilities are present within the complex. There is a designated Children's Hospital within the Bristol Royal Infirmary complex. 2013 saw the centralisation of the Head and Neck services to UB Bristol. Within BDH, this included oral and maxilla facial surgery and orthodontics. The South West cleft services transferred to the dental hospital in the summer 2014.

## **Other information**

### **Transport**

There are excellent transport connections to Exeter which sits close to the M5 motorway and has a mainline railway station with services to London and the rest of the UK. The fastest trains to London take just over two hours, so it is feasible when required to make day trips to London for meetings or conferences.

Exeter has an International Airport which is the UK headquarters for low cost airline FlyBe. There are numerous scheduled and charter flights to the UK and near continent. Bristol Airport is a larger hub and is approximately 1.5 hours by road for travel further afield.

For travel further west, the rest of Devon and Cornwall is reached via excellent road and rail links, providing easy quick access to innumerable holiday and recreational opportunities.
